

Moss Vale Public School Award System

To support the PBL process, the school Award system provides opportunities to recognise student achievement, contribution to the school community, demonstration of school values and participation in extracurricular activities.

The award system has been reviewed and now includes regular rewards in the classroom as well as certificates under an accumulative system to encourage children to work towards a Bronze, Silver or Gold Award which include a badge to wear with pride. It is intended that students keep their awards to progress to the next level.
